
Calm Week

An undated planner for focused, unhurried weeks

BY NØTT STUDIO

How to use

This planner has no dates, so you can start any day of the year. Print the pages you need as many times as you like, or open the PDF in GoodNotes, Notability or any PDF app.

1 **Intentions**

Once a year or once a season: what matters, what to let go.

2 **Month**

Write the dates into the grid and mark the big things.

3 **Week**

Pick three priorities. Everything else is a bonus.

4 **Day**

For busy days: a schedule, a short list, a moment to breathe.

5 **Habits**

One small dot a day. No streak guilt.

6 **Notes**

A dot grid for everything else.

Tip: plan less than you think you can do. A calm week is still a good week.

Fill a dot each day you did it. Missing a day is fine. Missing two is a signal, not a failure.
